

# Clorox<sup>®</sup> Cares Program

## Background

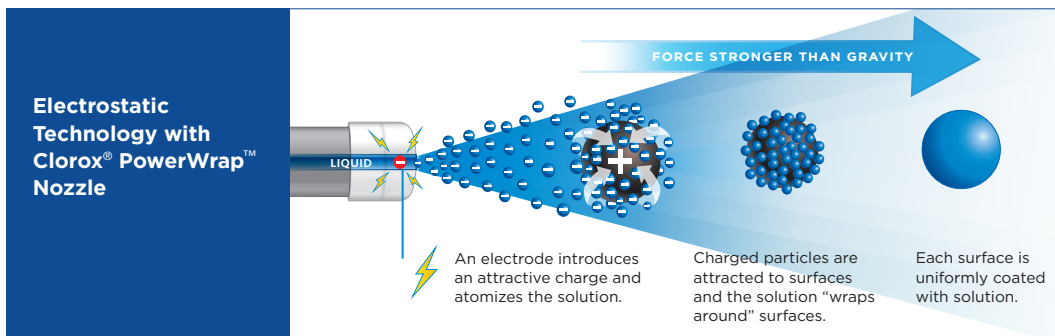

Our world is still in the grip of the COVID-19 pandemic. Whether shopping for essentials, visiting the doctor, commuting, or going to school or daycare, everyone benefits from proper surface disinfection.

We, at Clorox<sup>®</sup>, are in a position to help. Our leading edge Clorox Total 360<sup>®</sup> System electrostatic technology, when used with our Health-Canada approved Clorox Total 360<sup>®</sup> Disinfectant Cleaner, kills SARS-CoV-2, the virus that causes COVID 19, in 2 minutes.

We want to make sure that these products are available to everyone but recognize that the upfront costs of adopting a new method of cleaning and disinfecting can be an obstacle. To help alleviate some of this financial burden, we have created a bundle program we hope will be helpful to your organization.

## Clorox Total 360<sup>®</sup> System Delivers Superior Results

The Clorox Total 360<sup>®</sup> Electrostatic Sprayer, with the PowerWrap<sup>™</sup> nozzle, is an efficient, reliable and powerful method for full surface coverage – front, back and sides – can be properly disinfected & sanitized.

### The Clorox<sup>®</sup> Total 360<sup>®</sup> System Advantages...

#### PowerWrap<sup>™</sup> Nozzle

The advanced nozzle design provides highly reliable atomization and particle size.

**Delivers uniform wraparound coverage on all sides of target.**

#### Powerful Air Compressor

The dynamic air compressor enables fast, efficient delivery of charged particles to targeted surfaces.

**Cover more intended surfaces in less time.**

#### Reliable Delivery Method

The corded system ensures safe grounding and consistent electrostatic output.

**No variance in performance due to operator handling or battery life.**
