These Clorox chemistries meet the Health Canada designation for use with an electrostatic sprayer (ES). To check whether a product has the ES designation, you can go to the Health Canada public database on COVID-19: <https://www.canada.ca/en/health-canada/services/drugs-health-products/disinfectants/covid-19/list.html>.

If your product is approved for use with an electrostatic sprayer, "Electrostatic Spray" will be listed in the "Product form" column.

* on hard, nonporous surfaces

** Rhinovirus

> *Salmonella enterica* (Salmonella), *Escherichia coli* (E. coli), *Staphylococcus aureus* (staph) and *Listeria monocytogenes*

† Per Health Canada's list of hard-surface disinfectants with evidence against COVID-19, this product is considered effective against SARS-CoV-2, the virus that causes COVID-19
